VINAY DILIP JAYASELAN

ARCHITECT | BIM - VDC Engineer

EDUCATION

Ms Energy-Efficiency in Building Design

Lund University, Sweden

2nd Year [Final Semester] 2024 -

Building Energy Design | HVAC | Lighting | Solar Energy | LCA & LCC | Building Moisture and Heat Analysis | Material Physics |

Bachelor of Architecture

BMS School Of Architecture

[4 + 1 year of Internship] 2014 - 2019

Architectural Design | Urban Design & Landscape | Construction | Structures & Installations.

Diploma In Civil Engineering RJS Polytechnic

[3 years] 2010 - 2013

Calculation & Design | Construction | Structures & Installations.

SOFTWARE SKILLS

Revit Arch	
AutoCAD	
Rhinoceros	
Sketchup Pro	
Navisworks	
SQL	
Power BI	
Lumion	
Grasshoper	
MS Office	
Adobe Creative	
WUFI	
HEAT2	

PROFILE

I am a seasoned professional with a comprehensive background in VDC, BIM, and architecture, currently pursuing my final semester of a Master's in Energy-Efficient Building Design at Lund University, Sweden. My career has focused on leveraging cutting-edge technology and architectural expertise to enhance project efficiency and accuracy. I excel in coordinating multidisciplinary teams, managing digital models, and implementing innovative strategies to optimize the design and construction process.

With a deepening focus on sustainable design, I am keen to apply my expertise within a practical, industry context. I am confident that my technical proficiency in BIM/VDC, strategic approach to project coordination, and innovative mindset would allow me to make an immediate and valuable contribution to your team's goals for project efficiency and sustainability.

WORK EXPERIENCE

VDC - BIM Engineer

01/2022 - 04/2025

Modelyzelabs.ai / Doxel.ai | California [Hybrid]

- Led the implementation of VDC strategies, significantly improving project efficiency and accuracy.
- Spearheaded BIM initiatives, ensuring seamless integration of digital models into construction workflows.
- Managed the development and maintenance of 3D models, ensuring alignment with project specifications.
- Utilized advanced BIM tools for design, visualization, clash detection, and construction coordination.
- Implemented technology-driven solutions to optimize construction processes and enhance overall project outcomes.
- Collaborated with project managers to establish and meet VDC-related project goals and deadlines.
- Demonstrated expertise in utilizing BIM for quantity take-offs, cost estimation, and project scheduling.
- Contributed to the development of project-specific BIM execution plans to guide VDC implementation.
- Applied knowledge of construction methodologies to optimize VDC processes for various project types.

BIM Architect

10/2020 - 08/2022

GMSC Consultant | Bangalore, India

- Orchestrated, monitored, and oversaw all project disciplines, focusing on design, modeling, and interference checks.
- Conducted presentations and met with clients both during and post-project completion.

CERTIFICATION

Revit Architecture | AutoCAD | Python
| Rhino-inside | Grasshopper | Equa
iCD/ICE | Power BI

KEY COMPETENCIES

BIM Proficiency:

- Excellent knowledge of BIM LOD up to 400, showcasing attention to detail.
- Proven experience in building architecture with a focus on Revit/BIM methodologies.

3D Modeling:

- Proficiency in Revit Architecture, Rhino.Inside and Collaboration.
- Strong 3D skills, especially in Revit, SketchUp, and Rhino3D.

Parametric Design:

- Exceptional skills in creating parametric families within the Revit environment and Rhino Grasshopper.

Automation & Scripting:

- Experience in building custom plugins using Python/C#/JS API's for intricate modeling and workflow optimization in Autodesk Revit, Rhino 3D, Navisworks.

Coordination and Reporting:

- Produces essential coordination reports, including Visual, Clash, and Data Integrity checks to ensure model quality and project alignment.

- Managed the design and construction processes for five significant projects within Medical & Central Universities.
- Generated precise 2D drawings from project BIMs, addressing sheet management tasks, annotations, dimensions, notes, and visibility settings.
- Ensured compliance with BIM content standards, development procedures, and the creation of families.
- Provided on-site engineering support to construction and commissioning teams.
- Distributed drawings and layouts, offering assistance to clients throughout the projects and coordinating with PHE (Public Health Engineering), Electrical, and Fire disciplines.

Architect

08/2019 - 09/2020

Rathi Assoiates | Bangalore, India

- Capable of developing and producing REVIT content, as well as undertaking design detailing and scheduling for building services installation.
- Possesses attention to quality and details, with the ability to effectively communicate technical issues to co-professionals, contractors, and clients.
- Has a working knowledge of AutoCAD, Revit, and modeling.
- Demonstrates an excellent understanding of model and drawing production using Revit and AutoCAD.

Intern - Architect

06/2018 - 07/2019

B+N Architects | Bangalore, India

- Involved in all phases of the design and construction processes for 8 major national projects.
- Issued drawings and layouts, providing assistance to clients throughout the projects.
- Worked as a draughtsman, offering research and technical support in diverse projects including F&B, residential, retail, and commercial.

Intern - Architect

06/2014 - 03/2018

Citati Architects | Bangalore, India

- Designed and generated construction drawings and illustrations, ensuring alignment with the client's needs and goals.
- Prepared and detailed various architectural documents, revised construction plans, and developed 3D models.
- Engaged in small-scale residential and commercial projects, including the issuance of relevant documents.
